

INNOVATION LEADS TO VALUE

JB35UF MINI-EXCAVATOR

◆ Total weight: 3.75\3.85t

◆ Engine power: 18.2kW/2200rpm

◆ Bucket capacity: 0.11m³

- ◆ With zero-tail gyration and moving arm deflection, excellent synergistic operation could be realized;
- ◆ With the excellent sealing performance, the engine is completely isolated from the cabin, ensuring the quietness and comfort of the driver in the cabin;
- ◆ The cabin has with spacious driving environment and open vision, and is equipped with cold and warm air conditioning and suspension damping seat, providing relaxed and cozy driving experience.
- ◆ It is powerful and environmentally friendly. It has such functions as electrical throttle control and automatic idling, which could accurately match with the hydraulic system to ensure the high efficiency and low fuel consumption of the whole machine.
- ◆ Various options and configurations are available. Closed and open cabins could be selected. In addition, there are long and short bucket rods and many special bucket configurations for clients to choose for different working conditions.
